

2018 Medicare Costs: The Numbers

Description

Almost every year, it seems that retired persons healthcare costs go higher and higher. In order to keep your financial planning and retirement needs on track, you must be aware of all your 2018 Medicare costs. This is a vital part of your financial snapshot if you are in this phase of your life.

It is a common myth that retirees have free healthcare. For Part A, that's generally true. However, it is not the case for [Medicare Part B](#), [Medicare Advantage](#), [Medicare Part D](#), or [Medigap plans](#). Below you will find useful information on which costs are not free and what the costs are for 2018.

MEDICARE PART A 2018 Medicare Costs

Medicare Part A provides for inpatient hospital stays, skilled nursing, and rehabilitation after a deductible is met and up to specific limits. An example would be if you require hospitalization for longer than 60 days, you will be required to pay a share of the expenses; after 90 days you'll be responsible for 100% of your bill, if you've already used up your 60 lifetime reserve days.

You Can Get Part A Premium-Free If:

- You are already collecting benefits from Social Security or the Railroad Retirement Board.
- You're eligible to get Social Security or Railroad benefits but haven't filed for them yet.
- You or your spouse had Medicare-covered government employment.

If you're under 65, you can get premium-free Part A if:

- You received Social Security or Railroad Retirement Board disability benefits for 24 months.
- You have [End-Stage Renal Disease \(ESRD\)](#) and meet certain requirements.

For most people, Part A premium is free. However, some people do not qualify for it to be free. You need to have served at least 40 quarters of employment (10 years) of paying Medicare and FICA taxes while working, to be able to qualify. If you paid Medicare taxes for 30 quarters or less, Part A premium is **\$422**. If you paid Medicare taxes for 30-39 quarters, the Part A premium is **\$232**.

Generally, if you decide to buy Part A, you must also have [Medicare Part B \(Medical Insurance\)](#) and pay monthly premiums for both Part A and Part B. Contact the Social Security Administration to learn more about Part A premiums.
